WHY CHOOSE NDC TRAINING?

Stabilize and Sustain Your Community

Today, with a proven track record of results and accountability in revitalizing neighborhoods, important strategic partnerships, a highly developed training curriculum and a model for delivering technical assistance, NDC possesses the skills and experience to achieve local community development goals.

“NDC training gives practitioners the tools and techniques needed to get deals done. We bring the real world to the classroom with case studies based on actual deals and instructors who teach what they do in support of NDC’s mission in communities throughout the country.”

Capacity building through technical assistance and training is the heart of NDC’s work, but in pursuit of our mission, we have become a full-service community development financial institution for community and economic development, bringing development expertise and financial resources to client communities through a variety of high-impact programs.

NDC training is intense and rigorous—with as many hours as an average college course—plus homework and a final exam. Students work through real case studies, analyzing and structuring them to reach real solutions. We regularly update our courses with new material that reflects the latest financing programs, legislation and regulations. Course instructors are members of NDC’s team of development finance specialists who impart real-world knowledge in the classroom. Working in communities across the country to structure a wide range of transformative projects, our instructors bring a wealth of experience and a timely perspective to every NDC training course.

Rethinking How We Invest:
Homes, Jobs and Communities in 2017 and Beyond

October 23-25, 2017
Washington, DC

2017 NDC ACADEMY

The NDC Academy brings local nonprofit and governmental development professionals together to learn how to fully use federal, state and local development finance tools, to share best practices, and to advocate for the preservation and improvement of tools that have proven successful at local and national levels.

NDC Academy is a longstanding biennial event. This year's Academy will focus on how economic development and community development finance professionals can work with the new Administration to further their community's goals. More than ever, our community and investment partners need the opportunity to meet with one another and to interact with federal policy-makers. By October, the new administration will be in place, and Congress will have passed a budget providing insight into the priorities of our government's new leadership. The Academy will share valuable insight into the new Administration and give leaders new tools to strengthen their communities.

The NDC Academy is an approved activity for NDC Recertification.
